

OUR PATIENT AMBASSADOR PROGRAM

Would you like to speak with a patient who has had orthopedic or spine surgery?

Our volunteer Patient Ambassadors help those planning for joint replacement or spine surgery to learn more about what they may expect during their hospital experience and recovery. By sharing their personal experiences with surgery, a Patient Ambassador can help you better understand and plan for your surgery and recovery.

Patient Ambassadors will talk with patients who have asked to speak with an ambassador prior to surgery via a telephone conversation. Interested patients are matched with a Patient Ambassador

Care**

Saint Anne's Hospital

A STEWARD FAMILY HOSPITAL

who has undergone a similar procedure at Saint Anne's Hospital. For example, if you are interested in having a total knee replacement, you would be matched with an ambassador who has had a total knee replacement.

Our Patient Ambassadors have been recommended by their surgeon and completed a screening and an orientation program provided by the hospital.

If you would like to speak with an Patient Ambassador, please contact our Patient Ambassador Coordinator at **email kherri-lynn.rego@steward.org or 508-235-5260.**
