1 ACOs are considered to have successfully reported quality if they completely reported in a given performance year

2 For more information on how the Overall Quality Score was determined, please refer to the Quality Measure Benchmarks posted at https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/sharedsavingsprogram/Quality_Measures_Standards.html ACOs in Performance Year 1 (2012) have PAR displayed for the Quality Score to reflect that their quality performance is based on complete and accurate reporting. Average model-wide quality score figures for Performance Year 1 cited in press releases are based on determination of what the quality score would have been if shared savings and shared loss amounts had incorporated quality scores, as was the case in subsequent performance years.

3 For a crosswalk of ACO measure numbers to ACO measure names, please consult the following table: <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/sharedsavingsprogram/Downloads/ACO-Shared-Savings-Program-Quality-Measures.pdf>

^aMeasures marked with a caret (^) are measures where a lower performance rate is indicative of better quality.
