

# Carney Hospital

## Hybrid Acute Partial Hospital Program

Carney Hospital's Hybrid Acute Partial Hospitalization Program (HAPHP) is a recovery-focused, short-term outpatient program designed to prevent psychiatric hospitalization and/or to provide an extended period of stability after an inpatient stay.

For patients who have not previously attended Carney Hospital's Hybrid Acute Partial Hospitalization Program or accessed outpatient services, an in-person appointment will be scheduled to complete the registration and intake processes. Proof of a negative COVID-19 test is required before scheduling an appointment.

### Services Include:

- Clinical Evaluation: Comprehensive psychosocial and physical assessment accompanied with a discussion of program goals and expectations
- Individualized Treatment Plan
- Psychopharmacology and Psychiatric evaluation by MD or NP
- Group Therapy: Psychoeducation; Individual contact
- Crisis Resolution: Patients learn to recognize symptoms/stressors and develop coping strategies/ Safety planning: Establish therapeutic supports; Educate regarding community Connecting with staff with lived experience

### ADMISSION CRITERIA

- 17 years of age or older
- Current emotional or psychiatric symptoms severe enough to require intensive treatment
- A primary behavioral health diagnosis
- Not actively suicidal, homicidal, or unable to maintain safety
- Substance Free
- Admission is voluntary; daily attendance expected

### MAKE A REFERRAL

Please contact HAPHP at 617-506-4768 to discuss admission criteria. Referral sources will be sent a program package that includes patient information and intake application. We accept most insurance plans. Referrals may be made by primary care providers, emergency department, EMS services, community clinics, and inpatient facilities.

*After hours: Messages left after regular business hours will be answered within 24 hours, Monday-Friday by an RN psychiatric clinician or licensed mental health counselor.*
