Advanced Gynecologic Surgery at St. Elizabeth's Medical Center

Advances in minimally invasive and robotic-assisted surgery have transformed the way we care for women and the treatments and procedures we provide for benign gynecologic conditions. For some patients, such conditions can be challenging to treat but are at the center of their well-being. Our team of specially-trained surgeons provide state-of-the-art surgery for difficult or complex gynecological conditions to provide our patients with all the benefits that are proven to be associated with minimally invasive robotic surgery.

The da Vinci® Surgical System enables our surgeons to perform even the most complex and delicate procedures through very small incisions with unmatched precision. St. Elizabeth's surgeons leverage the da Vinci® Surgical System for benign gynecologic conditions including:

- Treatment of complex Endometriosis
- Hysterectomy for benign indications
- Uterine sparing myomectomy for fibroids
- Treatment of gynecologic patients with medical complications
- Treatment of benign gynecological conditions for patients who are obese

Less Invasive Surgery, Quicker Recovery

For patients, the advanced techniques in minimally invasive and robotic-assisted surgery can help get you back to your daily routine and regular lives. Benefits of robotic-assisted surgery can include:

- Faster recovery and shorter hospital stay
- Fewer stitches and less scarring
- Lower risk of complications and infections
- Less blood loss and the need for transfusions

Medically Complex Patients

In addition, there are patients who are medically complex. These patients might benefit from having surgery at a tertiary care center with increased medical and anesthesia support. Our advanced gynecologic surgery team is ready to assist you in the care of these patients.

Our Team

The Advanced Gynecologic Surgery Team at St. Elizabeth's Medical Center is led by Brien Daly, MD, FACOG, Director of the Division of Gynecologic Surgery. Dr. Daly is an Assistant Clinical Professor of Obstetrics and Gynecology at Tufts University School of Medicine. He is board-certified by the American Board of Obstetrics and Gynecology. Dr. Daly earned his medical degree at the Georgetown University School of Medicine in Washington, D.C. and completed his residency in OB/GYN at the University of Massachusetts Medical Center in Worcester, Massachusetts. He specializes in treatment of uterine fibroids, heavy periods, and endometriosis.
