

Steward Health Care Patient Assistance Center

Our goal at the Steward Health Care Patient Assistance Center is to streamline your registration experience.

Pre-registering for your appointment shortens the check-in process at the facility, and provides you information about your benefits and an estimate of your cost of care prior to service. It only takes 10 to 15 minutes to complete.

As a service to you, during the pre-registration call, we will attempt to verify your insurance benefits and eligibility and resolve any insurance concerns prior to your scheduled appointment. We will also provide you with an estimate of your out-of-pocket costs and information about your financial assistance and payment options so you can have a stress-free experience on the day of your procedure. Please pre-register at least three (3) days prior to service.

Please note if you do not initiate the pre-registration process with us, a representative from our Pre-Registration Department may call you to obtain the necessary information for the registration process. **This number may show up on your cell phone Caller ID as Steward Health Care, 866-231-2988 or SPAM.**

All information is secure and confidential.

Please be sure to bring your current driver's license and insurance card with you for identification purposes of the day of your appointment.
